

## **Dr. Beth Eichberger – Head Veterinarian**

Dr. Beth Eichberger is a 2010 graduate of Virginia Maryland Regional College of Veterinary Medicine. She also holds a Bachelor's of Arts degree in Political Science from the University of California, Santa Barbara. Dr. Beth relocated from California to Washington, DC to work for the US Congress at the House Committee on Commerce. While her time spent in government service was fulfilling, she felt called to veterinary medicine.

Upon graduation from VMRCVM, Dr. Beth opened a large animal veterinary practice where she provided care for horses, cattle, goats, sheep, llamas, alpacas and pigs. While working on the farms, she would provide care for small animal patients as well.

In 2019, Dr. Beth changed her primary focus from large animal medicine to small animal medicine and took a position with Pender Veterinary Center. She is now excited to be closer to home and able to serve her hometown community here in Marshall. Her areas of interest include geriatric medicine, preventative medicine, wound management and pain management.

When she is not at the clinic, she can be found on her small farm with her daughter, Olivia, where they love spending time with their horse, three cats and dog. Most weekends you can find Dr. Beth watching sports (especially soccer) and cheering for Chelsea Football Club.
